

FOOD PRESERVATION

Water Bath Couning

Project Overview

The Water Bath Canning Project is designed to help 4-Hers how to safely preserve fruits, tomatoes, fruit spreads and pickles. How to use home-canned foods you prepared in healthy recipes and to show others how to preserve foods by boiling water canning.

Key Learning Jopics

- Boiling water canning basics.
- Low-acid vs. high-acid foods.
- How to make altitude adjustments.
- Hot packing vs. raw (cold) packing foods.
- Selection and preparation of produce, jars and canning equipment.

 • How to test for a seal in processed jars.
- Proper storage and labeling of canned

Expanding the Project

- Volunteer your time to help someone in your area with boiling water canning items from the Farmers' Market or their garden.
- Volunteer to help someone in your area with gardening and growing fresh produce.
- Assist younger 4-H members with this project.
