- Paper Piecing Quilt (Paper Piecing pattern of choice)
- Paper Piecing Mug Rug/hot pad (Book Pattern or Paper Piecing Pattern of Choice)
- Mixed Technique Throw
- Mixed Technique Quilt

Quilting is a wonderful skill to develop. If you have completed the projects in Quiltin' & Stitchin' Unit 1, you have learned the basics of making a quilted throw or pillow using simple quilt patterns. Now you are ready to take on more advanced quilting projects.

This unit focuses on several more advanced techniques to continue the learning process of quilting in 4-H. The patterns are provided to get you started in each technique but shouldn't limit what you can complete and enter at fairs for each technique.

### In this project you will:

- Tools and supplies
- The importance of an iron
- Options for rotary cutting
- New techniques for piecing and quilting
- Ways to assemble a quilt

### As you develop your quilting skills, you may:

- Want to teach others how to sew.
- Make items to give to others.
- Sell items you make to earn money.
- Give talks or presentations about quilting to your club or other groups.
- Enter quilt shows.
- Enter/assist with achievement days and county fairs.
